4. Clinical Particulars

4.1. Indications/Uses

Gently cleans the nasal cavities when nose is blocked during colds or in allergic conditions.

4.2. Posology and method of administration

Dosage:

Infants and toddlers up to 2 years: 1 spray/ nostril.

Adults and children > 2 years: 1-2 spray/ nostril as needed.

The usual frequency of use is 2 to 4 times a day per nostril.

Otrivin S is suitable for infants, children and adults. Seek medical advice before using Otrivin S in an infant less than 2 weeks old.

For children below 11 years, *Otrivin S* should be used under adult supervision.

For hygienic reasons and to avoid contamination, the nasal spray should be used by one person.

4.3. Contra-indications

Do not use Otrivin S if you are allergic to any of the ingredients (see ingredients list).

4.4. Warnings and Precautions

Consult a doctor before use if you are using the product after nasal surgery or injury.

Due to its cleansing properties, Otrivin S nasal spray should be used first when using another local nasal product (e.g. for cold or allergic rhinitis).

Otrivin S nasal spray contains benzalkonium chloride, a quaternary ammonium which could cause a local allergy in those sensitive to this substance.

4.5. Interaction with other medicaments and other forms of interaction
