Nasal Solution

4. Clinical Particulars

4.1. Indications/Uses

Gently cleans the nasal cavities when nose is blocked during colds or in allergic conditions. Aloe Vera helps moisturize and soothe nasal cavities.

4.2. Posology and method of administration

Dosage:

Infants and toddlers up to 2 years: 1 spray/ nostril.

Adults and children > 2 years: 1-2 spray/ nostril as needed.

The usual frequency of use is 2 to 4 times a day per nostril.

Otrivin Baby Saline is suitable for infants, children and adults. Seek medical advice before using Otrivin Baby Saline in an infant less than 2 weeks old.

For children below 11 years, *Otrivin Baby Saline* should be used under adult supervision.

For hygienic reasons and to avoid contamination, the nasal spray should be used by one person.

4.3. Contra-indications

Do not use Otrivin Baby Saline if you are allergic to any of the ingredients (see ingredients list).

4.4. Warnings and Precautions

Consult a doctor before use if you are using the product after nasal surgery or injury.

Due to its cleansing properties, Otrivin Baby Saline nasal spray should be used first when using another local nasal product (e.g. for cold or allergic rhinitis).

Otrivin Baby Saline nasal spray contains benzalkonium chloride, a quaternary ammonium which could cause a local allergy in those sensitive to this substance.

4.5. Interaction with other medicaments and other forms of interaction
